------------	------------------------

SHIPPING:	Cost plus 25%
-----------	---------------

## TRAINING:

***In House	\$1,000.00
On-site	\$1,500.00
Virtual	\$500.00

ENGINEERING/DRAFTING:	\$1,200.00
-----------------------	------------

\*Add 30% for international service.

\*\*Escort fees are not included.

\*\*\*Add \$250 for each additional trainee.

## Note: Maintenance includes the following services:

1. Inspection of the unit for loose connections, premature wear, or capacitor leaks.
2. Cleaning of intakes, exhaust filters, and dust in interior and on exterior surface of unit.
3. System check to ensure unit is functioning properly.
4. Lamp test to ensure all indicator lights working properly.
5. Check fault log and power supply voltages.
6. Repair of any deficiencies/malfunctions detected during the inspection.

# PRODUCTS AND ACCESSORIES

## Frequency Converters

50/60/400Hz Systems (5KVA – 3MVA)

Parallel Systems

Point of Use Systems (30KVA – 180KVA)

Central Systems (180KVA – 3MVA)

Shore Power / Dockside Power

Custom Applications

## DC Power Supplies

28VDC

270VDC

Custom Applications

## Diesel Ground Power Units (GPU)

60KVA Diesel 400Hz GPU

90 – 120KVA Diesel 400Hz GPU

160 – 180KVA Diesel 400Hz GPU

28VDC Diesel GPU

270VDC

## Combination Units

FCX can combine any of our frequency converters, DC power supplies, and pre-conditioned air units into a single unit – in fixed or mobile configuration, and with electric power input and/or diesel generation power options.

## Accessories

Cables
